David:

This all looks great. This is the first I have seen this and it appears comprehensive. These workshops will be most appreciated by all. How about we start looking at some dates and venues. I will need to work with the Water Board to ensure they are available as well.

Thanks,

Rob

Subject: Proposed Agenda for CA AE Workshops

Hi Rob,

I don't recall that I sent you this draft/proposed outline of a potential aquifer exemption workshop (actually 2) for CA. We are actively engaged with our HQs folks on logistics/planning, but obviously this needs to align with state needs/efforts. If you have any particular thoughts or comments to add at this point, please let me know. Thanks, David
